EXAMINER'S AMENDMENT

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 28 March 2006 has been entered.

Amendment to the Claims

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Pamela Sherwood on 17 April 2006.

Please amend the Application as follows:

Cancel claim 16.

3. The following is an examiner's statement of reasons for allowance: the instant method claims are free from the prior art because the prior art previously cited is obviated by Applicants' arguments, specifically wherein the Declaration filed under 37 CFR 1.132 by Dr. Karl Willert distinguishes the instantly claimed methods from that of the methods listed in the specification of US 5,780,291 ('291). The '291 reference teaches the steps requiring the use of a phosphate buffer; however, as demonstrated by the Declaration, this is would reduce the solubility of the

lipid moiety comprising Wnt protein which was a art recognized problem at the time of filing the instant application. The problem is demonstrated in the references cited by Applicants in papers filed 28 March 2006 and as discussed in the Applicant Initiated Interview on 06 April 2006. The '291 reference does not teach the instantly claimed method steps for isolating a Wnt protein wherein the solubility of the Wnt protein is maintained in a substantially homogenous composition.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. Claims 7-11 and 13-15 are allowed as free from the prior art.
